

MODEL 4199

WALL PAD ALUMINIUM CHANNEL WITH HOOK & LOOP FASTENER

This extruded aluminum channel with hook fastener provides an easy and attractive method for attaching wall pads. This product may be used with Performance Sports Systems wall padding, corner pads and square column pads, or folding type mats provided by others. Loop fastener required on back of pads. Performance Sports Systems recommends three channels per wall pad. The quick removal and re-installation of pads allow the user to get double duty out of pads.

Aluminum mounting channel is drilled in the field and secured to the wall with an appropriate attachment method as dictated by building conditions. Aluminum mounting channel shall be provided in 6' lengths. Channel may be cut to length as required by installer.

Subject to design change and current manufacturing practices.
