

## MODEL FGP400GS

### **GROUND SLEEVE FOR 4 1/2" DIA. GOAL POST**

Ground sleeve constructed of 6 5/8" O.D. heavy wall galvanized tubing. Sleeve is 60" long and is equipped with vertical slot to accept threaded rod through post to prevent rotation. Sleeve comes complete with all threaded rods and nuts to fit the standard 4 1/2" goal post. Threaded rod through ground sleeve provides height for post and anti-rotation of sleeve in concrete footing.

Sleeve shall be designed for permanent installation. Sleeve to be installed with a concrete footing approximately 42" in diameter and 78" deep. Post shall extend approximately 42" into sleeve. Sleeve installation requires 15" concrete footing with drainage tube before concrete is poured around the sleeve.

Ground sleeve kit is for one post only. When more than one goal post is ordered, the quantity of ground sleeve kits must equal the number of posts.

**Concrete for installation not included.**

Subject to design change and current manufacturing practices.
