PRACTICE RING WITH REDUCED OPENING

APPLICATION

Practice ring is ideal for practicing shooting skills. The ring gives the shooter a smaller target and improves shooting accuracy. Practice ring reduces the standard goal size from 18" [458 mm] to 16" [406 mm].

SPECIFICATION

The practice ring shall be constructed of a 1/2" diameter steel rod formed into a ring of 16" [406 mm] inside diameter. Ring shall have 5 mounting points constructed from formed flat bar stock to fit over a standard goal ring. Each mounting point shall be fitted with a rubber pad to rest against the standard goal ring and shall have a locking screw to be tightened against the standard ring.

Subject to design change and current manufacturing practices.
